General description

ZEUS, The Ultimate Modular Unmanned Ground Vehicle

With today's new threats, you need to transform into a lighter, faster responding unit. The Zeus UGV has been designed for the EOD/IEDD/CBRNe and SWAT community to deal with a range of scenarios from simple reconnaissance, CBRNe investigation or to full scale EOD render safe procedures (RSP).

The highly modular design allows Zeus to be configured from a lightweight simple UGV to a fully capable EOD UGV.

Working characteristics

- Modular design
- Allows RCV to be configured to the specific task
- Easy to break down and transport
- Easy to repair in field
- 42kg maximum weight
- OCU based on Panasonic tough book
- 2m reach of manipulator
- Ability to climb stairs
- Ability to accept 3rd party sensors and water jet disruptors

Dimensional data

Length	770 mm
Weight	52 kg
Transport case provided	
Transport case information	Peli 0500
Transport case weight	22.7 kg
Transport case weight info	Case weight empty (no foam)
Case dimensions	101x59.5x72.7cm

Factory support data

Factory support	Designed and Made by NIC Instruments in the UK, we offer full factory and technical support.
Warranty	12 months as standard, can be extended.
Water resistant	
Temperature limitations	Storage: -20°C to +60°C, Operation: -20°C to +45°C

Price

Base price	125000 €
Reduction for higher quantity	Product is fully modular and loadout can be customised. Specification and qty will dictate the price.
Price for training	Various depending on loction and number of trainees.

Other

Additional equipment	Compatible with Waterjet disruptors, CBRNE sensors, X-Ray and User Filled Explosives
