

>Project Planning for Results: Part 1

Presentation 2

Design, Monitoring & Evaluation for Mine Action
IPDET-ITF-GICHD
Ljubljana, 1-5 February 2010

> Topics

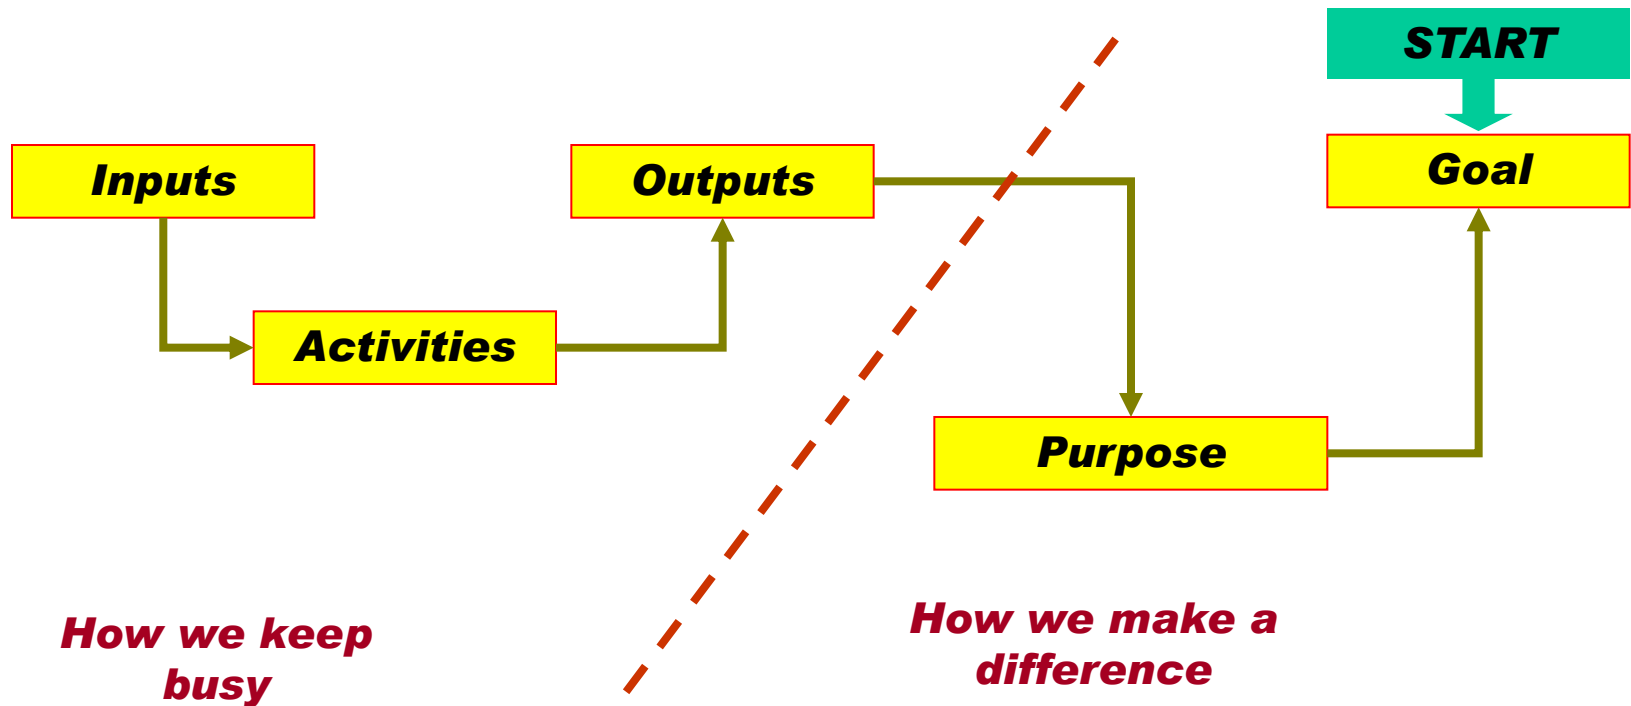

- 1. Hierarchy of Objectives**
- 2. Analysis Phase**
- 3. Planning Phase (next presentation)**

> **But first!!!**

> Core Planning Concept

> Plan to make a difference by addressing people's needs rather than how to keep busy.

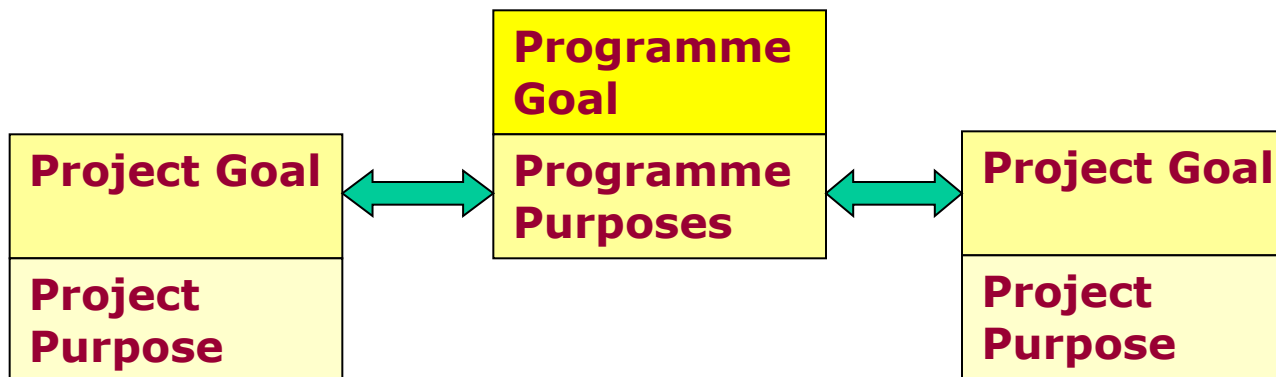

> Country Programme Strategy Hierarchy of Objectives

1. **Overarching Goal – Poverty Reduction**
2. **Programme Goals**
3. **Programme Purpose (= Project Goal)**
4. **Project Purpose**

> Hierarchy of objectives cont.

Overarching objective → e.g. Poverty reduction

“nesting”

(projects ‘nested’ in a programme)

> Hierarchy of objectives example

Overarching objective → e.g. Poverty reduction

**Programme
Goal**

**Programme
Purposes**

**Project Goal
(example)**

**Project
Purposes**

> Hierarchy of Objectives – Example

1. **Overarching Goal – Poverty Reduction**
2. **Programme Goals**
 1. Reduce rural poverty in mine affected regions
 2. Universal primary education
 3. Etc.
3. **Programme Purpose (Project Goal)**
 - 1.a Increase agricultural production
 - 1.b Revitalise small-scale irrigation
4. **Project Purpose**
 - 1.a Demine good crop land in highly impacted villages
 - 1.b Demine all traditional irrigation works

> Hierarchy of Objectives – continued

- > **Overarching Goal – Poverty Reduction**
- > **Programme Goals**
 - 1. Reduce rural poverty in mine affected regions
- > **Programme Purpose (Project Goal)**

Remember – It's how we make a difference

 - 1.a Increase agricultural production
 - 1.b Revitalise small-scale irrigation
- > **Project Purpose**

Remember – It's how we make a difference

 - 1.a Demine good crop land in highly impacted villages
 - 1.b Demine all traditional irrigation works

> Analysis Phase

- 1. Analysis of Problems**
- 2. Analysis of Objectives**
- 3. Analysis of Strategy**

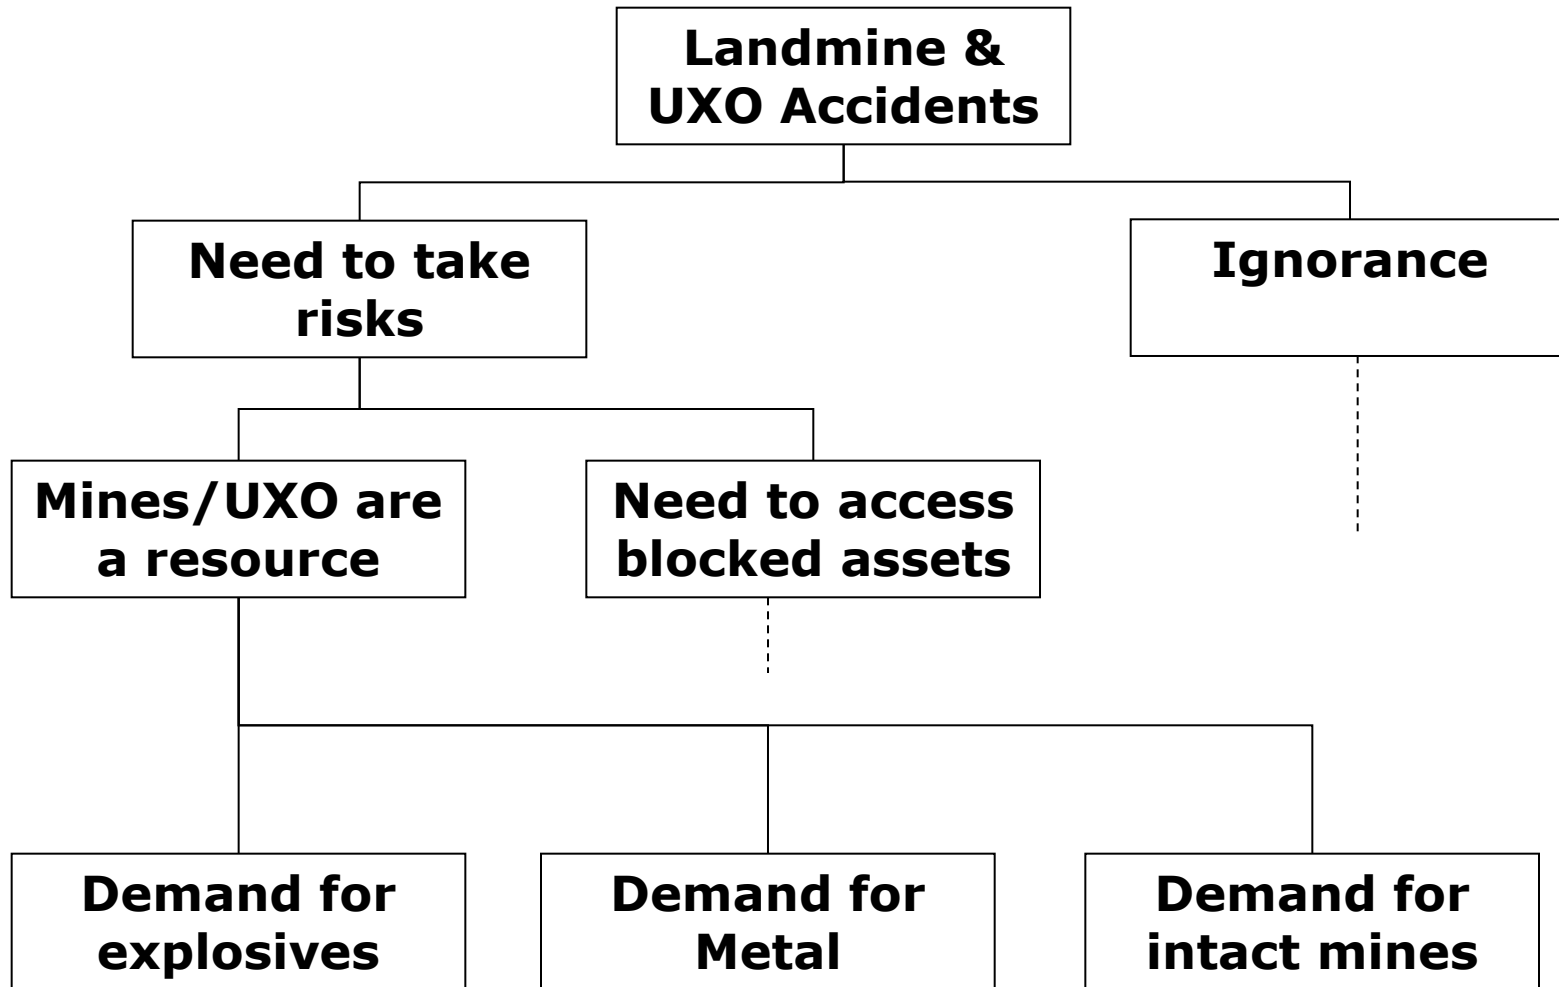

> Core Planning Concept

- > Plan to make a difference by addressing people's needs rather than how to keep busy.

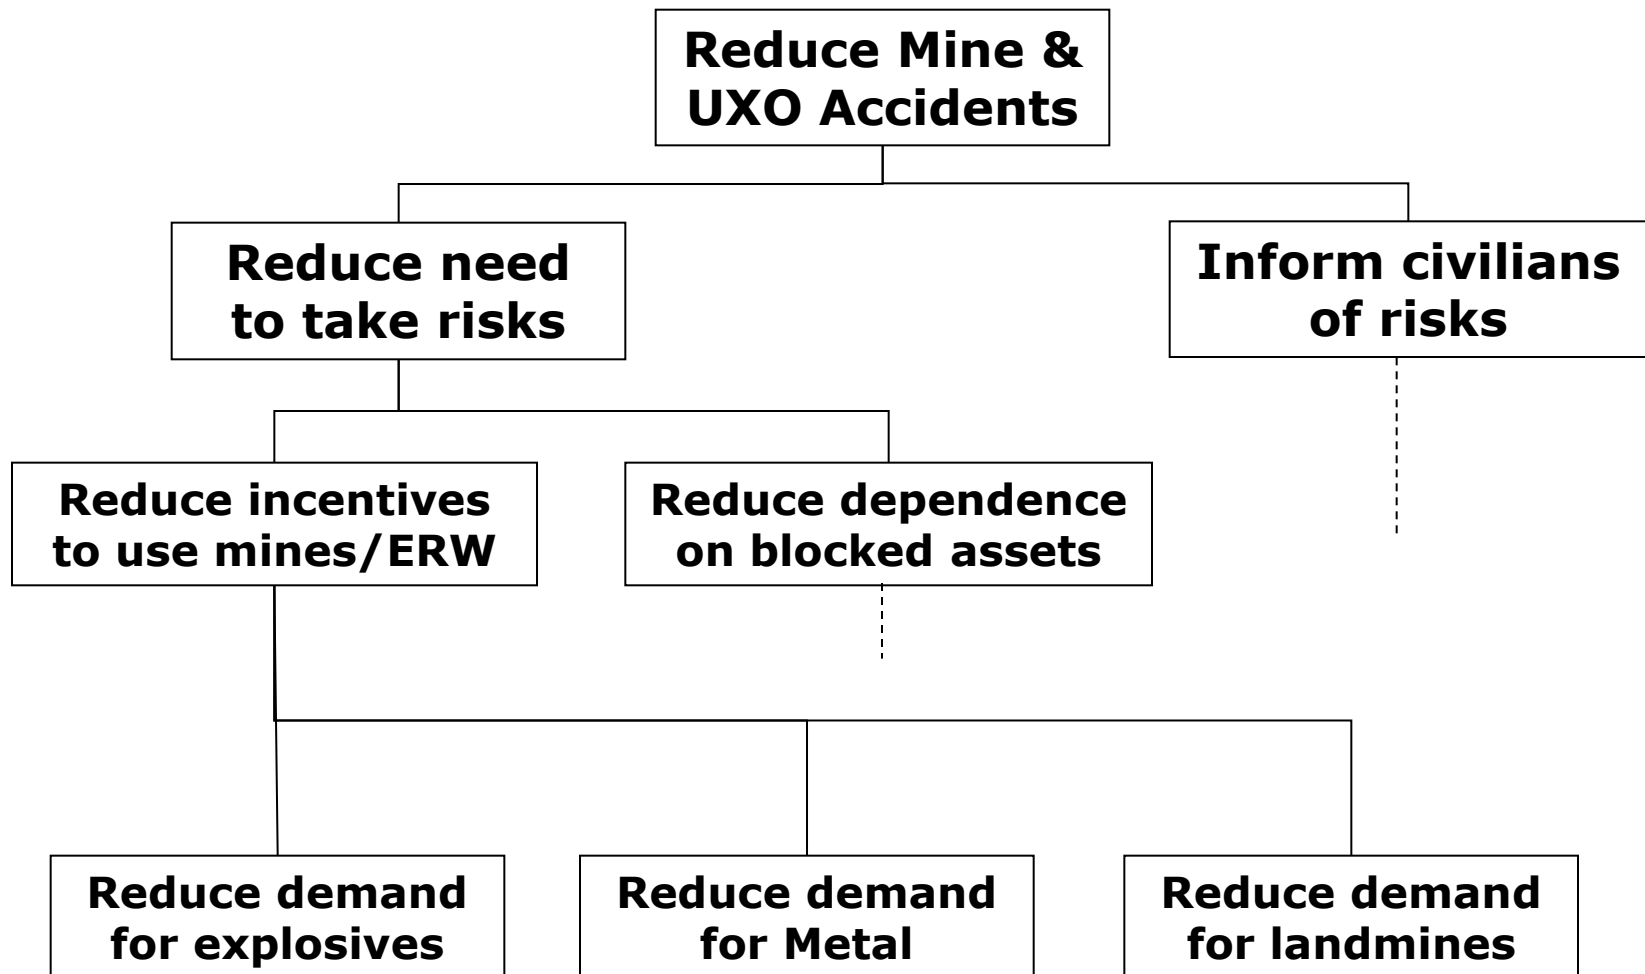

> Analysis of Problems

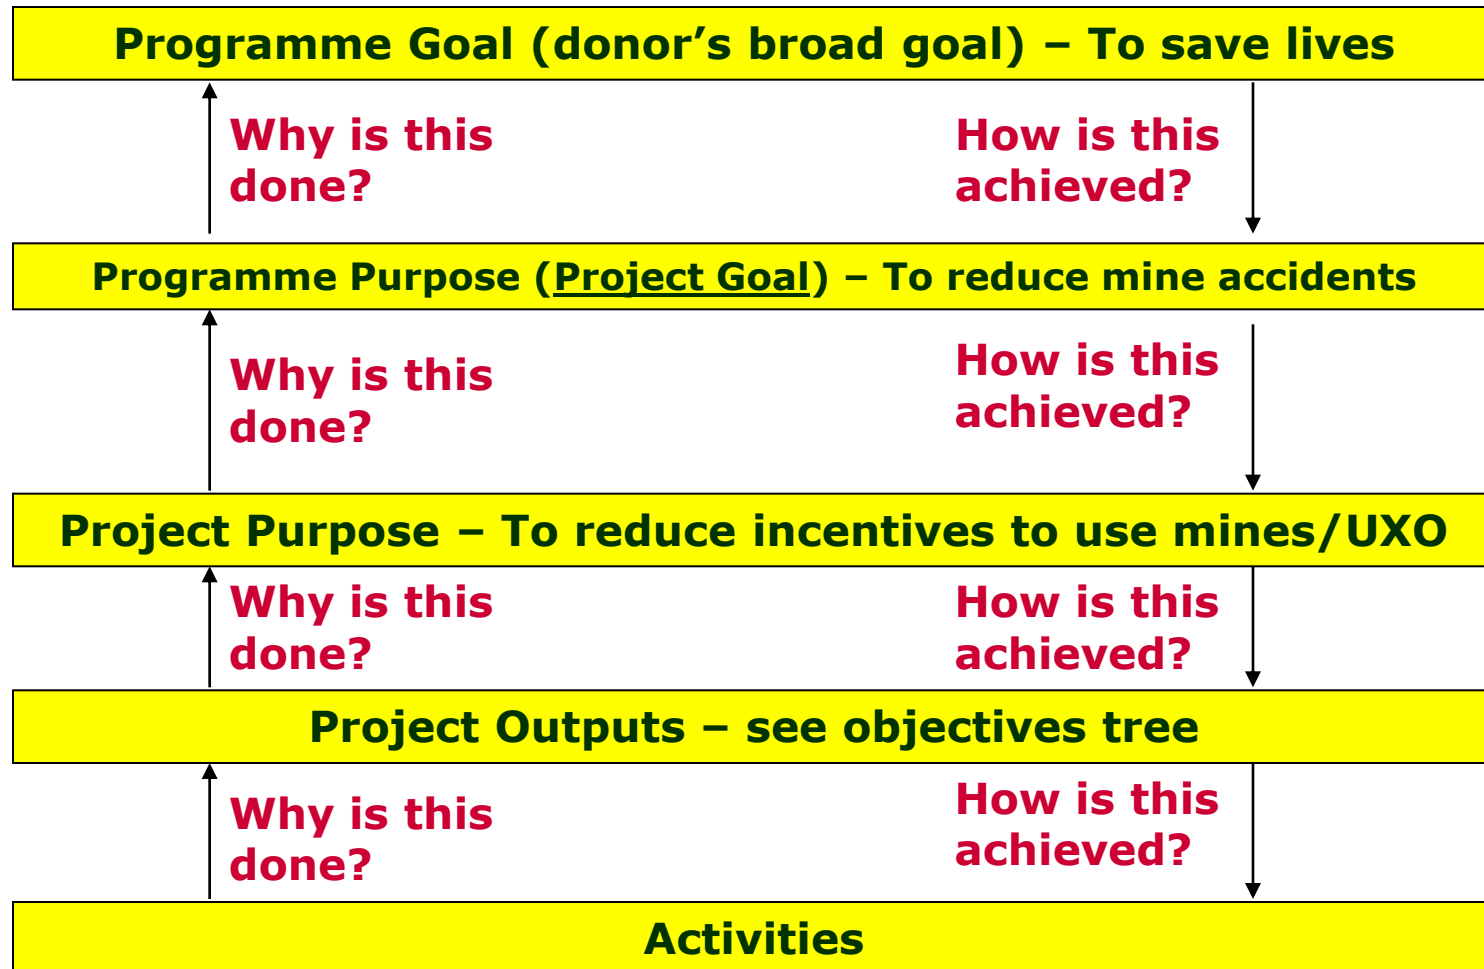

> Analysis of Objectives

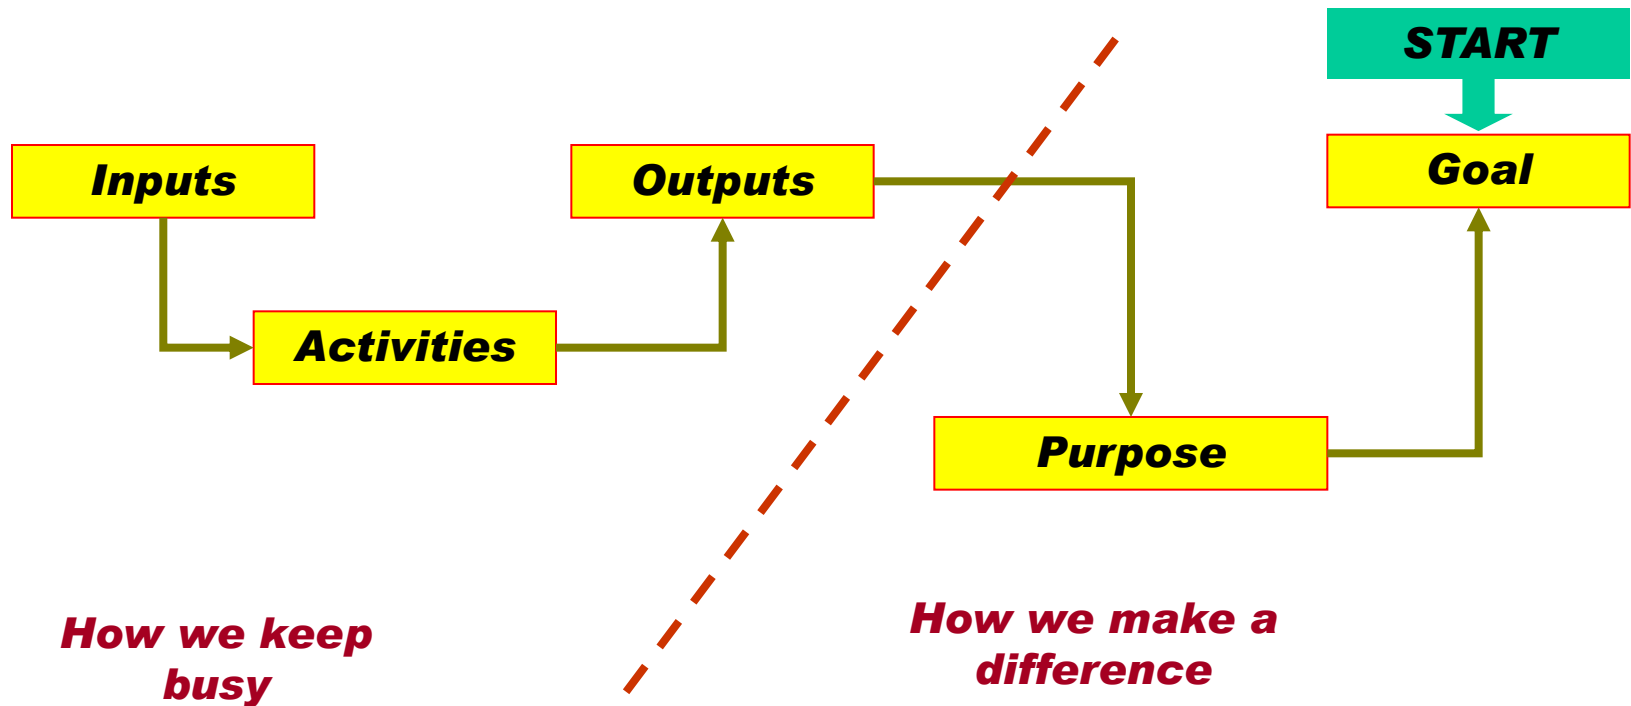

> Ends and Means Logic

- > Determine how we meet people's needs & work back logically to what we must do to meet those needs – the **LOGIC CHAIN**

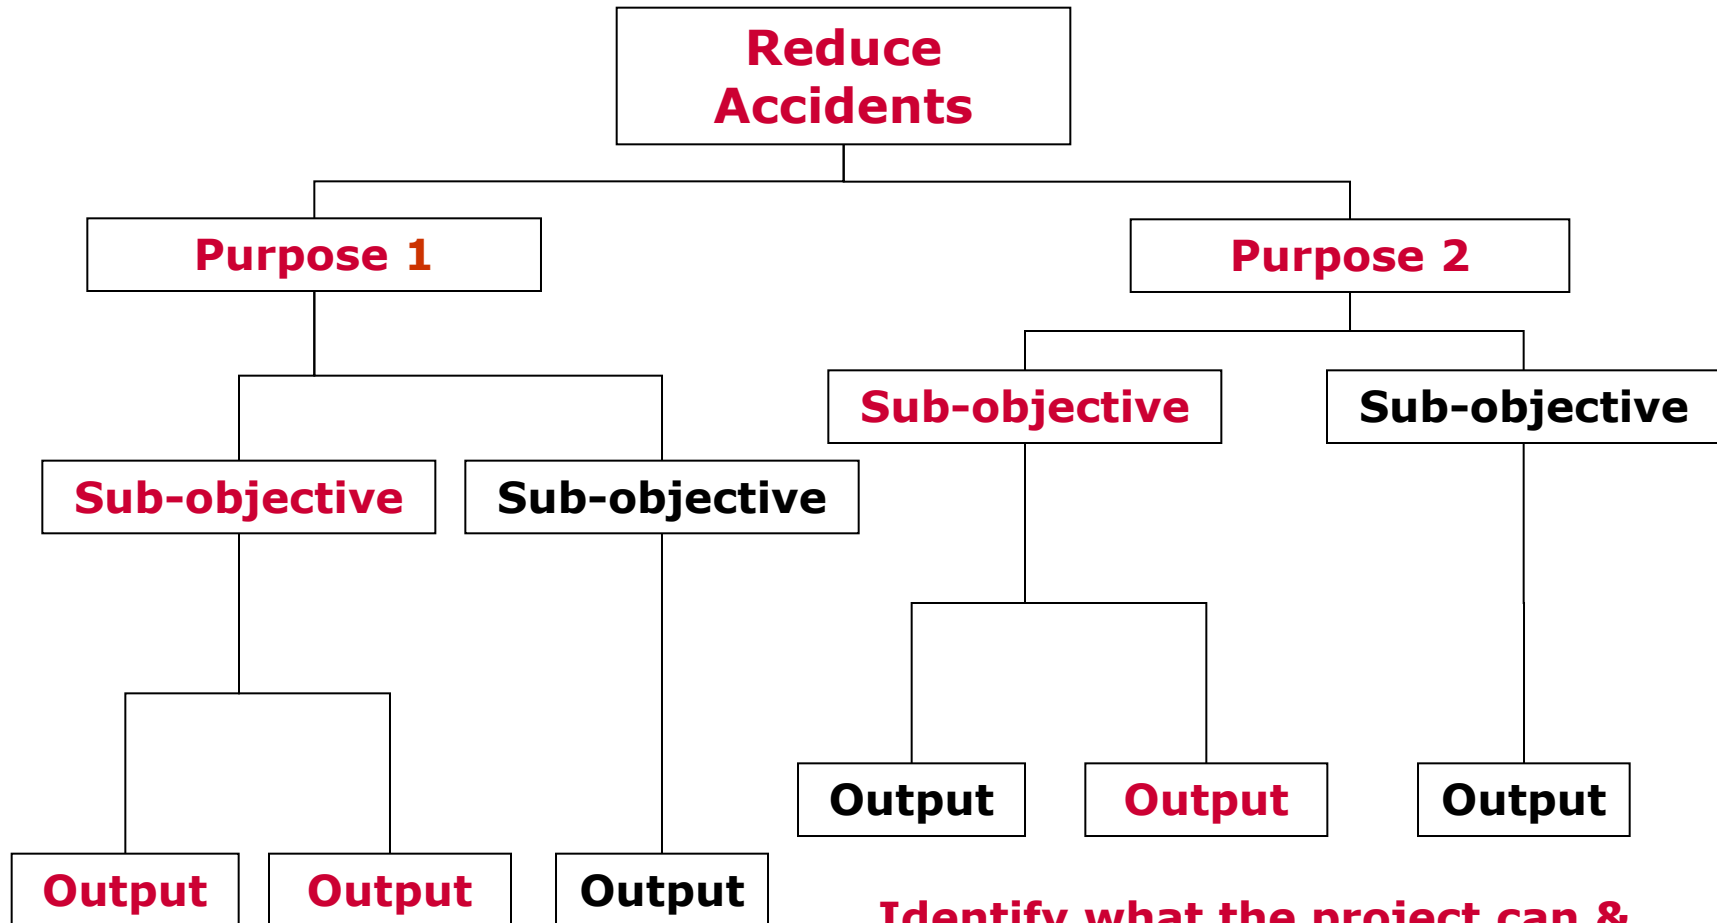

> Analysis of Project Strategy

- > **Once we determine what needs to be done, still need to determine...**
 - > **Is it doable?**
 - > **Technical feasibility**
 - > **Financial feasibility**
 - > **Capacity feasibility**
 - > **Is it worth doing?**
 - > **Cost-benefit analysis**
 - > **Who should do it?**
 - > **Which organisation(s) have mandate, interest, etc.**

> Analysis of Project Strategy

Identify what the project can & should aim to achieve

> Planning Phase (next presentation)

- 1. Complete Logical Framework (LFA)**
- 2. Adapt to Results-Based LFA**
- 3. Activity Planning (not covered)**
- 4. Resource Plan & Budget (not covered)**
