

DETECTOR

F3 COMPACT

Applications

Handheld
Handheld

Types

Metal detectors (MD)

Last update

01/01/1970

General description

F3 COMPACT Mine Detector Hand held metal detector The F3 Compact incorporates all of the capabilities of the proven standard F3 but with greatly reduced size and weight.

Working characteristics

Pules Induction metal detector, using Minelab's BiPolar Multi Period Sensing Technology. A compact mine detector with full performance.

Radio, audio, visual, sensitivity data

Transmission frequency	1.25 kHz
Audio output	Internal Loudspeaker and Earset
Visual display	LED display
Depth indication	No
Sensitive adjustment	1
Ground balance	1
Ground balance information	Fixed ground balance
Connectivity	RS232

Power supply data

Battery	C cell batteries, quantity four (4)
Low battery alert	1
Low battery alert information	Low battery alarm (audio and visual)
Rechargeable	1
Operating time	13 hours
Operating time information	Greater than 13 hours with 5Ah batteries
Battery charger provided	1
Battery charger information	Optional battery charger

Dimensional data

Length	1490 mm
Weight	2.7 kg
Search head size	200 mm
Shape	circular (round)
Transport case provided	1
Transport case information	Rugged transport case
Transport case weight	7 kg
Transport case weight info	Transport case with detector and accessories

Factory support data

Factory support	Full Integrated Logistic Support. Operations and Service Manuals can be downloaded from the Minelab webpages. Training and spare parts available from Minelab (on request).
Warranty	15 months
Humidity (limitations)	Water proof, IP 68, MIL STD 810G
Water resistant	1
Temperature limitations	-30C to 60C

Price

Base price	3237 €
Reduction for higher quantity	Price reduction available for higher quantities, contact Minelab for details and quote.

Other

Additional equipment	Accessories and spare parts
Detectors systems in use to date	Greater than 3,700 units
