

DETECTOR

Minelab MF5

Applications

Handheld
Handheld

Types

Metal detectors (MD)

Last update

01/01/1970

General description

MF5 Metal and Conductive Target Detector. The MF5 is a lightweight and compact detector designed for operator comfort and ease of use. The MF5 is suitable for Non-Government Organisations (NGO)

Working characteristics

The MF5 detector uses Minelab's unique Simultaneous Multi-Frequency Digital Technology resulting in the MF5 providing superior detection capabilities by combining the advantages of Pulse Induction and Continuous Wave Technologies

Radio, audio, visual, sensitivity data

Audio output	Internal speaker, earset
Visual display	9 LEDs visual and infrared.
Depth indication	No
Sensitive adjustment	1
Ground balance	1
Ground balance information	fixed Ground Balance
Connectivity	USB connection in Earset connector

Power supply data

Battery	C cell batteries, quantity four
Low battery alert	1
Low battery alert information	Low battery alert and Low battery alarm
Rechargeable	1
Operating time	13 hours
Battery charger provided	1
Battery charger information	optional battery charger

Dimensional data

Length	410 mm
Weight	2.6 kg
Search head size	270 mm
Shape	rectangle (rounded)
Transport case provided	1
Transport case weight	7 kg
Transport case weight info	with detector and accessories.

Factory support data

Factory support	Minelab Warranty, new product 15 months. Training available from Minelab. supporting documents and manuals available to download from Minelab web pages
Warranty	15 months
Humidity (limitations)	no limits, equipment is water proof
Water resistant	1
Temperature limitations	-30C to +60C

Price

Base price	4780 €
Reduction for higher quantity	Ask Minelab about discounts for quantity.

Other

Additional equipment	Accessories and spare parts available
Detectors systems in use to date	>1,000
