

Force Ware Fragmentation Shield

Applications

Handheld
Demolition equipment

Types

Metal detectors (MD)

Last update

30/04/3681

General description

Fragmentation Shield

Working characteristics

The Fragmentation Shield has been specifically designed for mine clearance and EOD work. It is made for operatives requiring protection from small anti personnel mines and EOD operatives in support of EOD technicians. The shield has two telescopic legs that can be placed into the ground to support it in the upright position, and centrally located window. Four soft handles are fitted to the reverse of the shield to assist in carrying it.

Dimensional data

Length	1300 mm
Weight	14 kg
