

PPE

Safe Pro Fragmentation and Blast Resistant Shin Guard Ensemble

Applications

Handheld
Protective clothing

Types

Metal detectors (MD)

Last update

01/01/1970

General description

The Safe Pro Fragmentation and Blast Resistant Shin Guard Ensemble is a component of the Safe Pro Demining Ensemble. It may be purchased as part of the complete demining ensemble or separately.

Working characteristics

• Standard coverage of protection consists of shins, knees and ankle. • Additional optional protection available for integration into the regular Shin Guards: Thighs and shoes (with fragmentation resistant overshoes) • Fragmentation resistant overshoes provide blast and shrapnel resistant surround protection all around the regular shoes donned by the demining end-user • Design allows full articulation at the knees and the full range of operational motions as required by the demining end user

Dimensional data
