

PPE

BLAST BOXERS (PUG - Protective Under Garments)

Applications

Handheld
Protective clothing

Types

Metal detectors (MD)

Last update

01/01/1970

General description

Following trails and ballistic tests, BCB have designed the Blast Boxer using a special comfortable Aramid fabric, positioned around crucial zones of the groin. Light open structure mesh is used on the rest of the garment to help offset the weight and thermal load of the ballistic material.

Working characteristics

Features • 2 layer Kevlar zones to protect the groin and femoral arteries • Lightweight mesh sides and lining to help relieve the heat and perspiration – anti-odour and fast drying properties • External seams to maximise comfort • Low cut leg to help protect the femoral artery • V50 rating double layer: 227.8 m/s (Fragment: 5.8 grain)

Dimensional data

Weight	0.200 kg
Sizes available	Small, Med, Large & XL

Price

Base price	55 €
