

PPE

ROFI Ravelin Demining Vest

Applications

Handheld
Protective clothing

Types

Metal detectors (MD)

Last update

01/01/1970

General description

The ROFI Ravelin protective clothing consists of a vest unit covering the front, abdomen, sides, shoulders and neck, including a second collar functioning as the connection between the clothing and the Face Mask or visor.

Working characteristics

The ROFI Ravelin demining vest is designed in order to meet the specific requirements for demining in tropical climate. The design facilitates protection for the deminers when in upright position operating the metal detector, as well as in both squatting and kneeling position during prodding. We offer 3 different versions of the ROFI Ravelin vest: • Open Back strap system, OB • Half Protected Back, HPB • Protected Back, PB The ballistic inserts of the vest can easily be removed, and the outer cover can be washed in a washing machine in 40°C.
