

RFO/2026/KIB/04

Development of Ammunition Inventory and Surveillance Information Management Systems Clarification Notice

GICHD has received requests from potential bidders for access to certain materials referenced in the Request for Offers (RFO).

To ensure a consistent approach and equal access to information for all interested bidders, GICHD wishes to inform potential bidders that the existing system wireframes referenced in the RFO may be made available upon request and subject to the execution of a confidentiality/non-disclosure agreement (NDA).

The wireframes are provided for information purposes only and do not form part of the RFO.

For the avoidance of doubt:

- The RFO remains the only authoritative procurement document.
- The availability of the wireframes does not amend, supplement or modify the requirements of the RFO and does not create additional contractual commitments on the part of GICHD.
- Bidders may submit questions or requests for clarification relating to the RFO, its requirements, or the wireframes.
- GICHD may, at its discretion, respond to such questions and requests for clarification where it considers this appropriate to support bidders in understanding the requirements and preparing their proposals.
- Where GICHD reasonably considers that a clarification, response or additional information materially affects bidders' understanding of the requirements, scope or assumptions relevant to the preparation of proposals, GICHD will make such clarification or information available to all interested bidders in an appropriate manner.
- Bidders should not rely on any assumptions that are inconsistent with the requirements set out in the RFO.

Interested bidders may request access to the wireframes by contacting [Jovana Carapic] at [j.carapic@gichd.org] and [Inas Rashad] at [i.rashad@gichd.org].

Access to the wireframes will be subject to execution of the NDA provided by GICHD and compliance with any conditions applicable to the use of the materials.
